RECLAIMED & SUSTAINABLE WOOD FLOORING

Black & Tan skip-planed with just a suggestion of tan.

Fully planed, revealing rich patina and scattered fissures from weathering.

In a herringbone pattern – the contrasting colors combined with the shifting grain direction make for a stunning floor.

## INTRODUCING BLACK & TAN OAK

Our new solid flooring line is named for its rugged coat of black paint, which when removed reveals a rich, tan-colored oak. It will be available in a variety of options.

Jered Slusser, our wood expert and author of the blog, **Designing Against the Grain** says, "Working with the contrasting colors of the Black & Tan creates visual texture, stunning color patterns, and a completely unique look. There are many oak floors on the market, but this is the only one with this combination of character, even amongst reclaimed woods."

### UPCOMING EVENTS

Log & Timber Show  
Oct 30–Nov 1  
Portland, OR

GreenBuild Booth #5006  
Nov 11–13  
Phoenix, AZ

Historical Bits

Bargain Basement

True to our environmental commitment, we traced the black paint back to its source.

It is an environmentally friendly, waterborne polymer. It is a non-toxic, non-flammable, solvent free, low VOC waterproof coating used in agricultural settings and safe for use around farm animals.

## HOLIDAY SHOPPING

Over the summer we took you on a culinary tour around NYC. This month we'll go holiday shopping at a few of our customers' establishments.

**Bristol Harbour, Canandaigua NY**  
This 5-season resort overlooks Canandaigua Lake and offers families or couples getaway packages from golf, to skiing, to wine tours. Character Select heart pine flooring, reclaimed timbers and paneling can be found throughout. Our sister company, New Energy Works, designed and built the timber frame lodge.

**Eileen Fisher, Nationwide**  
We love the variety of woods we use in their stores: ash, elm, and oak to name a few. The women on your list will love the clothes.

**Red Feet Wine, Ithaca NY**  
For wines and spirits, this is the place. And, they deliver. But then you'd miss seeing our Grandma's Attic floor and paneling. If you don't have the luxury of living near Ithaca, it's equally fun to explore their [web site](#).

**Bass Pro Shops, Nationwide**  
We know a thing or two about Bass Pro, having supplied flooring and timber to them for years. They sell all sorts of outdoor sports gear, from archery to camping to hunting and oh yeah, fishing tackle! If you visit the Auburn, NY store, you'll also see another one of New Energy Work's timber frames.

**The Peninsula Spa, Chicago, IL**  
Ahhhhh. Who doesn't love a spa gift certificate. Especially surrounded by storied oak used as wall paneling at the entry.

**The Lion King store, Las Vegas NV**  
After visiting the Lion King Theater for a live showing of the musical, stop next door for a souvenir. Check out our Settlers' Plank flooring while you're there.

## 35 DAYS LEFT TO ORDER YOUR THANKSGIVING FLOOR

If you're hosting Thanksgiving this year, now is the time to order your floor. This will ensure time for proper acclimation, installation, and finishing. And when you give thanks to our forefathers (and mothers), you can tie in the history of your antique floor.

## READY TO SHIP

We have 8,000 square feet of flooring waiting for a home to spend its next hundred years. For the best deal on Character Select Heart Pine you'll ever find, [click here](#).

*"Howdy Pioneer. Here is the nursery of Hendrix Rainey using your delightful heart pine flooring. Thanks as always for your help. We love the floors. What were we even thinking to consider carpeting? Never!!!"*  
-Dewi Rainey

## FLOOR OF THE YEAR

If you installed a floor using our wood this year (or had it installed, or installed a floor for a customer) send us a photo with a short note on why this floor should win, and we'll consider entering it as one of the three we submit to the National Wood Floor Association for their annual "Floor of the Year" competition.
