

**When:** Wed, Nov 11 + Thu, Nov 12  
**Exhibit Hall Hours:**  
9am – 5:30pm

**Where:** Phoenix Convention Center,  
Phoenix, AZ

**Booth:** #5006

Join **Pioneer Millworks** at booth #5006 as we unveil our fall line. Already known for **The World's Most Eco-friendly Engineered Flooring™** we've added our most popular antique floor, **Settlers' Plank**, to the line. Settlers' Plank celebrates wear marks, knots, saw marks, nail holes, and the wood's naturally occurring vagaries creating a warm, relaxed appearance. It's 100% made in the USA, it uses no VOC, no formaldehyde adhesives, it's available unfinished and both the wear layer and platform are FSC certified.

We'll also have a few surprises with a new look for reclaimed oak and some more exotic species.

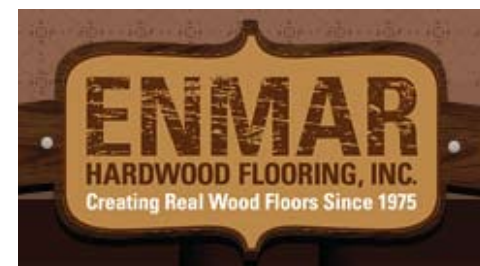

See you there!

Martin Brett

Jered Slusser

**P.S. Meet Wood Flooring Celebrities...**

Tricia & Todd Thompson, owners of Enmar Hardwood Flooring in Phoenix, and 2 time NWFA Floor of the Year winner! They'll be on hand to discuss design and installations using our reclaimed materials and to answer your questions about projects you might have.

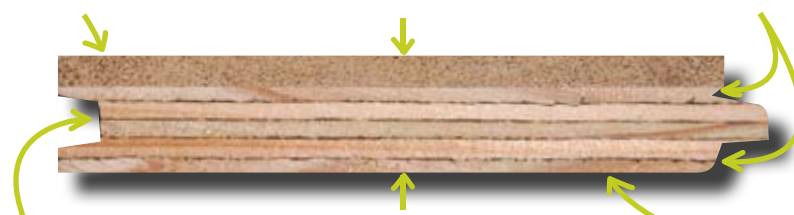

Wed, Nov 11th from 11 – 2:30.

**The World's Most Eco-friendly Engineered Flooring™**

**Wear layer:** FSC certified, 3/16" thick

**Finish:** Available finished or unfinished

**Adhesives:** No added urea formaldehyde, no VOC

**Tongue & Groove:** Quality milling you can depend on

**100% made in the USA**

**Substrate:** 70% or more domestic FSC content

Settlers' Plank mixed oak floor by Pioneer Millworks, an Enmar installation and winner of the **NWFA Floor of the Year** for best reclaimed.
