American Prairie **Brown Board**

Species

May be hardwood or softwood or a mix of the two.

Source

Orders will include a mix of two or more source materials such as split softwood joists, interior softwood barn boards, timber jackets, etc.

Color

The as-found brown patina includes a variety of shades from deep loam to rich golden browns to soft tans. Any range of original brown patina is permissible in any combination.

Knots

Unlimited sound, tight knots permitted, some surface defect from chipped/open knots

Texture

Face of material will have varying textures ranging from rough-sawn, to circle sawn, to planed, to heavily weathered. Circle sawn, rough sawn & planed boards can be used singularly or in any combination.

Holes

Nail, knot, and bolt holes may be present as well as open knots. Up to 2" in diameter are permissible.

Checks

Checks up to 3/4" wide are permissible as long as the board will hold together for installation.

Moisture Content

Kiln dried to 6 – 9% unless otherwise requested

Millwork

Standard product is supplied with two edges ripped (some material may be sawn on the backface)

Minimum Length

24"

Width

4" to 8"

FSC

FSC Recycled 100% credit
