## American Prairie **Weathered Grey**

### **Species**

May be hardwood or softwood or a mix of the two.

### **Source**

May include barnwood, agricultural fencing, and wood salvaged from other outdoor structures.

### **Color**

The as-found grey surfaces may range from light silver to dark charcoal.

### **Knots**

Unlimited sound, tight knots permitted, some surface defect from chipped/open knots

### **Texture**

Face of material will have varying textures ranging from rough-sawn or planed, to heavily weathered. The edges on premium siding will be ripped and show "bright wood". As found siding will have natural edges.

### **Holes**

Nail, knot, and bolt holes may be present as well as open knots

### **Discoloration**

Ferrous staining may be present. Color and patina will vary

### **Checks**

Checks allowed as long as the board will hold together for installation.

### **Moisture Content**

Kiln dried to 6 – 9% unless otherwise requested

### **Millwork**

Standard product is supplied with two edges ripped (some material may be sawn on the backface)

### **Minimum Length**

24"

### **Width**

4 to 8"

### **FSC**

FSC Recycled 100% credit

### **LEED**

MR 4.1 & 4.2 (Material Reuse)
