

Original Foundry Maple: Batch #190715

Elizabeth Mill—Warwick, Rhode Island

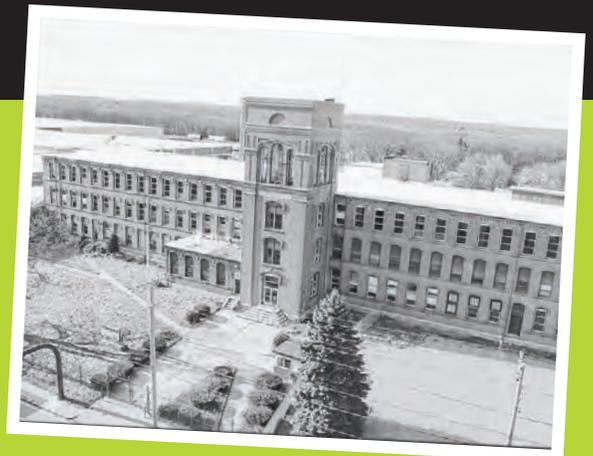

Original Foundry Maple is one of our Single-Origin Batch products. In contrast to our line of Standard Products which blend material from multiple sources to ensure a look that is consistent and repeatable from order to order, our Single-Origin Batches can be traced to one specific source and are finite in quantity. These products have a distinct look and a unique story to tell.

Salvaged from the historic Elizabeth Textile Mill in Warwick, Rhode Island, this hardy Maple floor was underfoot for over a century of manufacturing. Material within this batch varies in color from golden brown to charcoal grey and may include occasional paint, old machine oil stains, and a range of wear marks. A great choice for commercial applications, this floor's unique appearance adds an instant and authentic industrial character to any environment.

Steam-run Textile Mill

Built in 1875 by Thomas Hill, the Elizabeth Mill (named after his wife) was an exceptionally large textile mill for its time. Powered by steam rather than water, the mill was built on cheaper land away from the river but closer to the rail line. With its brick façade and distinguished central tower, the mill was a notable landmark in Warwick, RI throughout a century of economic growth.

**Original Foundry Maple: Batch #190715
Elizabeth Mill—Warwick, Rhode Island**

Solid Dimensions:

- Thickness: 3/4" to 7/8" variable
- Width: 2 1/2" to 4 1/2" random face widths
- Length: 12" to 10'

Milling:

- Ripped two edges (R2E)

Surface:

- Original surface patina with a light nylon-brushing

Certifications:

- FSC Recycled 100% (SCS-COC-003998)
- mindful MATERIAL
- LEED point eligible

**Pricing Per Volume
(unfinished)**

\$7.45–\$10.45/sf
