

# Original Gym Flooring: Batch #4063

Linn Benton School—Albany, OR

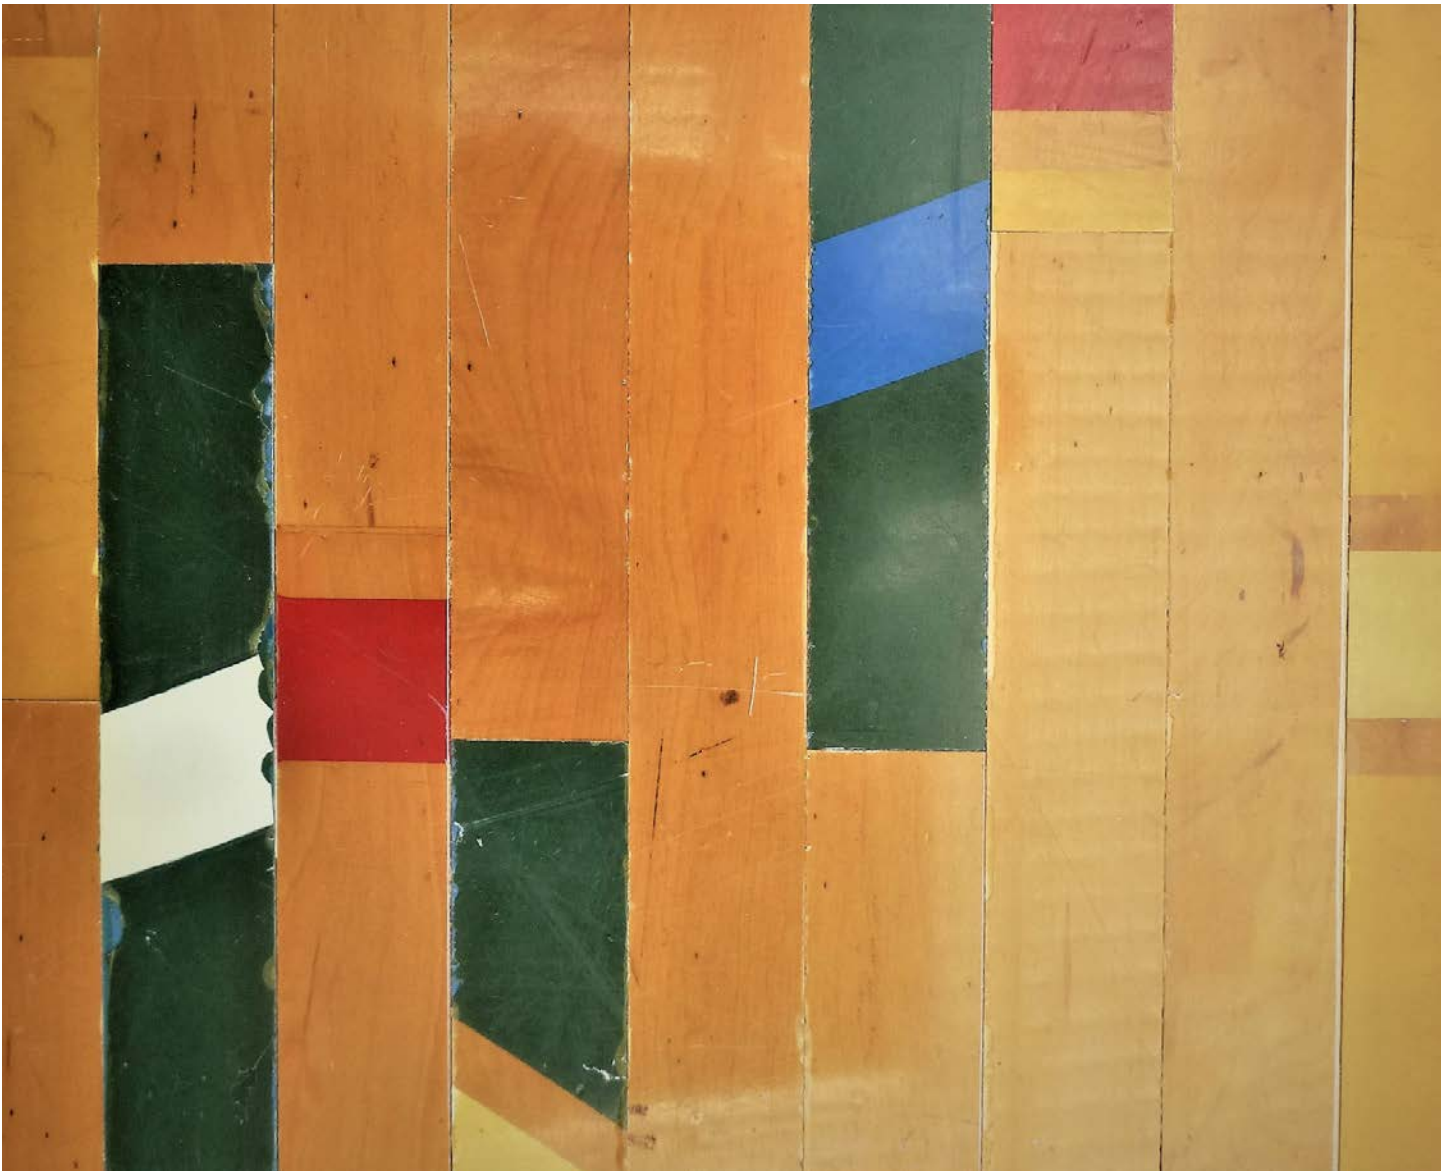

Photo shown prior to disassembly.

Salvaged from Linn Benton Community College in Albany, OR, this gym floor's original forest green, gold, red and white paint lines have been reshuffled into a confetti of colorful stripes and marks. Like most gym floors, the wood is a high grade of maple with an amber finish. The original tongue and groove remains intact.

## Home to the Linn Benton Roadrunners

In the Spring of 2018 Linn Benton Community College replaced the 1970's era floor in their well-used athletic facility. Home to the Linn Benton Roadrunners (named for the fact that students were constantly running between campus buildings that were spread far apart), this gym produced at least one notable athlete: Behdad Sami, the world's first Iranian basketball player to play professionally at any level in the United States.
