

American Prairie—Weathered Grey

Pioneer millworks
RECLAIMED & SUSTAINABLE WOOD PRODUCTS

Our take on barn wood paneling is broad and dynamic in scope. We incorporate wood that is salvaged not just from barns but also from agricultural fencing and other structures that have endured the elements. Weathered Grey is sorted for a mix of tones from silver to charcoal, selected from the boards that spent their previous life standing up to the elements and oxidizing to the perfect blend of greys. Good for use in both interior and exterior applications.

MATERIALS

1. **Product Name:** American Prairie Weathered Grey
2. **Species/Description:** Domestic Mixed Hardwoods and/or Softwoods with original patina
3. **Source:** Agricultural/Industrial deconstruction
4. **Color:** Tones may range from dark to silver grey.
Unlimited color variation is inherent to the product.
5. **Grade:** Weathered Grey
6. **Dimensions:**
 - Solid**
TH—5/8" to 1" variable
WD—4" to 8' random, widths to up 10" may be available upon request
LG—2' to 12' random (not all orders will include lengths over 8')
 - Engineered**
TH—N.A.
WD—N.A.
LG—N.A.
7. **Milling:** Ripped on two edges (R2E), surfaced 2 sides (S3S) available upon request
8. **Finish:** Unfinished unless specified otherwise
9. **Hardness:** 420–1100
(Janka Ball Test ASTM D1037-96A, Natural wood products have no minimum hardness since hardness is a characteristic of species and cannot be controlled)
10. **FSC Claim:** (SCS-COC-003998)
 - Solid:** FSC Recycled 100%
 - Engineered:** N.A.

ADDITIONAL INFORMATION

Heartwood: No restriction

Grain: No restriction

Knots: No limitations on sound knots, surface defects from chipped or open knots may be present.

Texture: This mixture shows a varied pattern of saw marks, wear patterns, colors and textures. Overwood of up to 1/4" can be expected.

Voids: Fastener holes and open knots can be present and may reach 2" in diameter. Larger voids are occasionally included to preserve long lengths. Surface defects from insect marks, including pin holes may be present.

Discoloration: Ferrous staining from previous fasteners may be present.

Checks: Structural checks not affecting the integrity of the plank, once installed, are allowed and more prevalent as the width of the material increases.

Moisture Content: Kiln dried 6–9% prior to milling.

LEED INFORMATION

MRc3: Materials Reuse

(materials used for this credit cannot be applied to MRc4 or MRc5)

MRc4: Recycled Content, 100% Post-Consumer Recycled Content

(materials used for this credit cannot be applied to MRc3 or MRc7)

MRc5: Regional Materials (call for details)

MRc7: Solid Materials are FSC Recycled 100%

RECOMMENDED OVERAGE

Recommend 10-15% additional material for on-site grading, trimming and installation factors.
