### **ACCOYA® Color—Grey Decking**

Pioneer Millworks Accoya® Color Grey Decking is FSC®-certified and cradle-to-cradle gold certified making it a top choice for sustainability and material health. The rot and moisture resistance of this acetylated pine is due to the unique vinegar treatment

it is given directly after harvest. This makes it extremely durable, rivaling tropical hardwoods for longevity, and it comes with a 25-year above-ground warranty. After the acetylation process these decking boards are then immersed in a dye that penetrates the wood to the core with pigment, meaning that any cut ends maintain their color without needing any additional stains or finishes, and the decking surface will not require refinishing throughout its lifecycle.

# Pioneer Millworks ACCOYA® Color—Grey Decking

#### **CUT AND PASTE SPECIFICATION INTO APPROPRIATE CSI DIVISION**

09 15 00-Wood Decking

#### **MANUFACTURER**

Pioneer Millworks East 1180 Commercial Drive Farmington, NY 14425 Phone: 800-951-9663 Pioneer Millworks West 2655 NE Orchard Ave. McMinnville, OR 97128 Phone: 503-437-9017

#### **MATERIALS**

- 1. Product Name: ACCOYA® Color—Grey Decking
- 2. Species/Description: Radiata Pine/acetylized & color treated, smooth planed
- 3. Source: Sustainably Harvested Forests
- 4. Color: Grey. Some color variation is inherent to the product
- 5. Grade: Select
- 6. Dimensions:

Solid

TH-1"

WD-5 3/4"

LG—8', 12', 14', 16' (Actual length may vary by up to 2")

- 7. Milling: S4SE4E
- 8. Finish: Unfinished
- 9. Hardness: 922

(Janka Ball Test ASTM D1037-96A, Natural wood products have no minimum hardness since hardness is a characteristic of species and cannot be controlled)

10. FSC Claim: FSC Mix 70%

#### **ADDITIONAL INFORMATION**

**Heartwood:** No restriction **Grain:** No restriction

Knots: Boards to be primarily free of knots

Texture: 100% surfaced Voids: No voids present

**Discoloration:** Some variations in overall color tone may be observed between

batches, or single boards within a batch, due to the natural

variability of wood.

Checks: No checks present

Moisture Content: 3-5% in normal conditions

#### **LEED INFORMATION**

MRc1: Building Life-cycle Impact Reduction.

MRc3: FSC Mix 70%.

MRc4: Material Ingredients Optimization: C2C Gold Certified.

#### **RECOMMENDED OVERAGE**

Recommend 7–12% additional material for on-site grading, trimming and installation factors.

#### **FASTENERS AND FIXINGS**

- 1. Avoid ferrous metals (coated mild steel)
- Face or hidden fasteners can be used and many fastening systems will work with Accoya Color
- 3. Use stainless steel grades A2, A4 (304 / 316)
- 4. To prevent end splitting, you will need to ensure that the fixing is placed with at least 1" clearance to the end of the decking board with a pre-drilled pilot hole through the boards
- To prevent staining using a non-corrosive barrier between treated lumber and metal hangers is recommended such as Protecto Wrap.

## GRADING

### Accoya Color Deckboards

Grading takes place across 3 zones

Layers of Typical Color Deckboards

## GRADING

### Accoya Color Grading Rules

**Accoya Color Rough Sawn** - these boards are skimmed, generally on sapwood face for Color quality check. This is defined as the top face. These grading rules apply to the boards as delivered and visible defects in that delivered form. The grading rules do not apply to boards which have been further processed by the manufacturer or any further step.

**Accoya Color Deckboards** - the grading rules apply to boards supplied as profiled to the finished deck board by manufacturers, Accsys, and of those boards in the delivered state. As with all wood products, supplemental defects might develop in service and are outside the scope of this Grading specification.

	Accoya Color Grading Table							
		Graded by the better face	Better Face	Back Face				
Color Defects		At the end of the board	Maximum 24 inches patch total length	Unlimited				
	_	In the middle of the board	Up to 3 patches allowed Maximum 24 inches total length	Unlimited				
		Along the edge of the board	Maximum 1 inches wide	Unlimited				
	_	Between boards	Variable shades of grey permitted	Unlimited				
		Total surface area	Maximum no color uptake on 15% of surface area. Brown staining (will machine out)	Unlimited				
Wood Defects	ving nt	Knot (pin)	1/2 inches diameter or less	Unlimited				
	the following equivalent	Bark or resin pocket	5/16 inches wide, 2 inches long or equivalent	Unlimited				
	Up to 3 of the followir defects or equivalent	Resin streaks	A set of three up to 5/16 inches wide, 4 inches long or equivalent, E.g. equivalent could be 6 qty 5/16 inches wide and 2 inches long	Unlimited				
		Surface checks Three up to 1/16" wide, 10" long or equivalent		Unlimited				
		Splits and end splits	Short split, up to width of board and not to exceed 8"	n/a				
		Wane	Not allowed	Unlimited				
		Bow	Allowable Limit  8 ft					
		Crook	6 in 8 ft 0.2 in 12ft 0.39 in 14ft 0.59 in 16ft 0.79 in					
		Allowed twist per 3.93 in width	4/4 in 5/4 in 8 ft 0.39 in 0.39 in 12ft 0.79 in 0.79 in 14ft 0.79 in 0.79 in 16ft 0.79 in 0.79 in	Twist				
		Allowed cupping	Width (in) Allowed cupping (in) 5 in 0.08 in 6 in 0.08 in					
		Tolerances Thickness - 0.02 in Width - 0.04 in
