

## Settlers' Plank Oak

Red and White Oak were prolific throughout most of the Eastern US and used in construction across agriculture and industry. We carefully skip plane our Settlers' Plank material so that at least 50% of the overall surface has remnants of original saw marks and patina. Ranging from rough, dark original texture to smooth and bright grain, this grade is durable and rich in character —perfect for accent walls or flooring.

#### **ADDITIONAL INFORMATION**

- Heartwood: No Restriction
- Grain: No Restriction
- Knots: No limitations on sound knots.

Surface defects from chipped or open knots may be present.

Texture: This mixture shows a varied pattern of saw marks, wear patterns, colors and textures.

Material is surfaced so that approximately 50% of the original patina remains. Generally, 70% of boards have some patina. Overwood of up to 1/8" can be expected.

Voids: Fastener holes and open knots can be present and may reach 1/2" in diameter in flooring or 1" diameter in paneling.

> Larger voids are occasionally included to preserve long lengths. Surface defects from insect marks, including pin holes may be present.

- **Discoloration:** Ferrous staining from previous fasteners may be present.
- **Checks:** Structural checks not affecting the integrity of the plank, once installed, are allowed and more prevalent as the width of the material increases.

Moisture Content: Kiln dried 6-9% prior to milling.

#### INSTALLATION RECOMMENDATIONS

Overage: Minimum 10% additional material for on-site grading, trimming and installation factors.

Climate: As with any wood flooring product, the room temperature should be held at a consistent range between 60-80° F with relative humidity between 30-60%.

Environmental conditions consistently outside of these parameters could result in product performance issues.
