INSTALLATION RECOMMENDATIONS

Overage: Minimum 10% additional material
for on-site grading, trimming and installation factors.

Climate: As with any wood product, extreme climate conditions including heat, cold, humid or arid can cause movement and performance issues with the material.

Shou Sugi Ban Larch, Brushed

Traditionally Inspired American Made™. This 18th century technique of preserving wood with fire is refreshed for today's design. Aggressively burning the surface layer of our sustainably harvested Larch, we then wire-brush each plank multiple times to remove the soft char and expose the contrasting grain below. This heavily textured and visually dynamic surface is coated with an exterior grade finish in a selection of cool greys, warm browns, or a pop of color.

Larch is a durable wood with attractive tones and interesting grain patterns. Our Shou Sugi Ban Larch Tiger's Eye is recommended for interior applications only due color instability resulting from the lack of pigment in the finish.
