INSTALLATION RECOMMENDATIONS

Overage: Minimum 10% additional material

for on-site grading, trimming and installation factors.

Climate: As with any wood flooring product, the room temperature should be held at a consistent range between 60-80° F with relative humidity between 30-60%.

Environmental conditions consistently outside of these parameters could result in product performance issues.

Casual White Oak

Our Casual White Oak, also known as European Cut US White Oak, makes the most of live sawn boards, preserving sound knots and embracing color variation. Made with FSC® Mix Certified lumber, this grade maximizes the yield of each log and is true to the organic nature of the tree in terms of appearance. Colors range from tan to brown.
