

Larch Carbon & Sand Siding

Traditionally Inspired, American Made™, a dramatic evolution on a centuries old tradition Yakisugi.

Pioneer Millworks burnt wood Shou Sugi Ban siding and paneling can be as unique as the space you are designing or the home you are building.

Charred wood, preserving the deep wood grains and weathered texture, brushed to accentuate the hidden beauty.

Larch Cobalt Siding

Our goal is to help you shine, ensuring your project goes smoothly from start to finish. By inventorying & milling our products in New York & Oregon, we can remove obstacles so you can hit tight schedules and budgets. Here is our promise:

- On time, your time, every time.
- We mill for precision, grade for quality, and kiln-dry for stability—assuring you a headache-free job site.
- Let us pre-finish your order and save you install time. We have standard oils, polys, and nano options.
- If you have questions about delivery, acclimation, installing, or finishing—call us, we speak construction.
- We source and mill in-house giving us buying power and control; giving you competitive pricing.
- Your whole-project solution: With full in-house drafting, design, and custom woodworking should you need it.

Serving great clients across North America from NY & OR

Shou Sugi Ban

Shou Sugi Ban

TRADITIONALLY INSPIRED, AMERICAN MADE™

Over **20** options from classic black to modern white; from punchy reds to neutral grays; Larch, FSC®-Certified Douglas fir, FSC®-Certified ACCOYA®—all made in the U.S.A.

FSC®-CERTIFIED ACCOYA®

ACCOYA® Shou Sugi Ban is FSC®-certified and cradle-to-cradle certified making it a top choice for sustainability and material health. This acetylated pine is given a unique vinegar treatment directly after harvest making it rot and moisture resistant. This makes it extremely durable, rivaling tropical hardwoods for longevity, and it comes with a 50-year above-ground warranty.

Solid: 5 1/4" or 7 1/4" as specified face width, 8'–16' random lengths.
