INSTALLATION RECOMMENDATIONS

Overage: Minimum 10% additional material
for on-site grading, trimming and installation factors.

Climate: As with any wood flooring product,
the room temperature should be held
at a consistent range between **60-80° F**
with relative humidity between **30-60%**.

*Environmental conditions consistently outside of these
parameters could result in product performance issues.*

Clean Ash

Sophisticated, warm, and chic this line offers a twist on classically
elegant species, matching function with contemporary farmhouse style.
Showcasing modern flare with a more uniform appearance than its
reclaimed counterpart, this high grade of Ash is sourced from forests
which are carefully managed to strict Forest Stewardship Council® (FSC®)
requirements. Celebrated in natural, fresh-sawn tones, expect consistent
hues ranging from cream to light brown, relaxed grain patterns, and as
a few small knots. This sustainably harvested wood pairs especially well
with our custom eco-friendly finishes for flooring and paneling.
