When it comes to sustainable forests, the Forest Stewardship Council® (FSC®) sets the standard. We have long been FSC® chain of custody certified.

Our Sustainably Harvested options include wood from FSC-certified® forests as well as incidental species, standing dead, and small well-managed family forests.

With additional sources, we have access to species beyond what you see here. Give us a call and we'll work to find a sustainable option for your project.

We do well when we do good

Based on a simple belief that people, planet, and profit work together to ensure a better future, Pioneer Millworks operates on the triple bottom line. We strive to keep our carbon footprint small; our roofs house 100kW solar arrays and our wood scraps keep us warm. One percent of our Indonesian teak sales are donated to conservation causes on the island of Borneo. Our American Prairie sales support domestic barn and historic preservation. Our products are FSC-certified®, LEED point eligible, and in many cases diverted from landfills. Your purchases are what make this crazy ride possible, *thank you.*

Serving great clients across North America from OR & NY.

Raked

Looking for bartops, tables, feature walls or something completely indescribable? We are skilled in full fabrication including furniture, fixtures, and build-outs.

ADD A FINISH:

Consistent tones make our Sustainably Harvested species a perfect canvas for color. If you're looking for a specific tone, here's an assortment to get you started—or call us to create your own hue.

Finish colors shown on Ash for consistency, but all species are available. Tones will vary based on species—we're happy to work with you to get just the right look.
