

## Shou Sugi Ban Accoya®

Traditionally Inspired, American Made™—an 18th-century technique for preserving wood with fire is updated to meet 21st-century design and performance standards. With our Accoya® Once-brushed With our FSC®-Certified and Cradle-to-Cradle Certified™ Accoya® Brushed we aggressively burn each board, then brush off the softest layer of char resulting in a smooth, dark, and slightly textured surface that is coated with an array of exterior grade colors. Accoya® is a premium rot and insect resistant material, well known for its durability and ability to withstand the tests of any climate. Applying the Shou Sugi Ban preservation method increases the overall look and life of the wood, while providing a sustainably sourced, naturally beautiful material that takes well to stains and coating.
